## CHARITY ORGANIZATION

### WHO WE ARE

The Angkor Charity Organization is a non-governmental, apolitical, secular and non-profitable organization was established on **February, 21, 2009** in the brain child of Prof. Nou Tat (Chairman/Founder) and his dedicated charitable colleagues for the benefit to those less fortunate within the poor community. And it was officially registered and recognized under The Ministry of Interior of The Royal Government of Cambodia on **March, 31, 2011** (Regis N°: 700).

Angkor charity Organization provides life-changing education, vocations to our vulnerable children whose ages ranging from **5-16** within most destitute communities in Siem Reap, Angkor. In the beginning, our world revolved around the health, well-being, education and vocation of 35 orphans. To-day, we educate and provide vocation to more than 160 children and extends our services to provide for their families and communities in crisis.

Our first main accomplishment was The Opening of Free English Language School for the orphans and other impoverished local children in the community. This school is run entirely by volunteer staffs and teachers with small funding and it is run solely on donations. Each month is our new challenge to pay for staffs, school supplies and other expenses for our children. Many of these children have lost one or both parents or come from destitute families. The majority of children in our school were former garbage and recycling items pickers living and working in Siem Reap. Now, we are constructing necessary facilities for the initial orphanage of 35 local identified orphans in dire need of a healthy, safe and stable environment. Now, it is not finished yet. We need more construction materials and funding that enables us to complete it soon. Ladies and gentlemen help our work so that to make our children's dream come true!

**Angkor Charity Organization** is working toward a combined Cambodian goal of achieving a developed and educated nation and populace. Through a healthy and stable environment and educations, we all have a strong conviction that Cambodia can join the league of developed nations in the world. *In my mind and from my eyes, I really know that Education is essential for the human's life. Everything else such as: food, shelter, loves and expertise that civilized the human society and government etc-is important but without education is at major risk and peril. Cambodia was completely devastated by the Khmer Rouge, I decided to put all my effort to help my nation recover and reconstruct my country through education and providing skill services to the poor. "Now, it is time for everyone to have equal chance to education", I think. Dearest generous ladies & gentlemen kindly help our work that enables us to fulfill our dream!!!*

## VISION

- All our identified children will access to higher quality of education.
- They all have equal opportunity of education and skills that enable them to better themselves and families in the future.
- We provide our children both care and nutrition as we can do.
- Empower women in our community have a chance to build their basic skills to further income for their families.
- ACO is dedicated to giving its students the chance to discover their individual voices. We are proud to see our students demonstrate intolerance for injustice, a strong sense of self-worth and a deep sense of compassion and respect for their communities and country – ultimately honing their potential to emerge as leaders and progressive spokespeople enacting positive social change.

## MISSION

- We provide equity & justice to all our identified children and staffs.
- And offer them a safe, healthy and stable environment and free education, technology skills and other impoverished local children in the surrounding communities.
- We try to promote their welfare and enhance human resources that enable them to develop their families and Cambodia as whole.
- We strengthen and stabilize our charity work for a long term strategies to maximize the benefits of education and skills for our local children.
- To empower the women in our community by providing them the skills or support in necessary for increased income generation.
- We do our best to protect our women and children from trafficking and commercial sexual exploitation.
- We strongly and eagerly support child safe program.

### **OBJECTIVE**

- We provide education and skills to all our impoverished children so that they may better themselves and become productive, upright and moral members to develop Cambodia.
- ACO aims to instill self-respect, respect for other; which will enable them to become a successful part of the wider community.
- To seek our foreign generous fund-supporters so that to sustain all our destitute and orphaned children and our staffs as well.
- To provide a healthy, safe and stable environment for our local identified children by providing them a good care such as physics and mentality and social moral conduct.
- To promote an understanding of human rights and to end domestic violence.
- ACO is working toward a combined Cambodian goal of achieving a developed and educated nation and populace. Through a healthy and stable environment and education, we all have a strong conviction that Cambodia can join the league of developed nations in the world.
